DETAILED ACTION

The request for extension of time and amendment filed 12-2-01 is acknowledged. Claims 13-29 have been canceled and new claims 30-41 have been added. Upon review and consultation with senior examiners, the decision has been made in view of the complexity to require restriction.

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 30-31, 36-40, drawn to a method of making a prodrug complex with combinatorial selection and a prodrug complex made by combinatorial selection.

Group II, claim(s) 32-33, drawn to a method of making a prodrug complex with *in vitro* evolution.

Group III, claim(s) 34-35, drawn to a method of making and administering a prodrug complex.

Group ^{IV}III, claim(s) 41, drawn to an immobilized prodrug complex.

2. The inventions listed as Groups I, II, III, and IV do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the methods of Groups I, II, and III do not require the same mode of operation steps and the invention of Group IV is not required to be made by the methods of Groups I, II, or III.

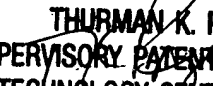

Art Unit: 1615

3. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
